

## Car Rental Terms & Conditions

### Supplemental liability insurance

In case of damage to the rental car, the Renter's liability is **DKK 9000 per damage**. This fee can be reduced to **DKK 2000 or DKK 0** with the purchase of the Self risk insurance at the cost of **DKK 119/Day** or the Premium self risk insurance at the cost of **DKK 179/day**, which can be paid online or when receiving the car. Make sure to take photos of the car before and after the rental. **If you do not notify us of a damage made during your rental period, there will be charged an extra DKK 300.**

### Fuel

The car comes with a full tank of gas when handed over to the Renter and must be returned with a full tank of gas unless other agreements have been made before returning. If the tank is not full when the car is returned, the Renter will be charged the fuel amount in addition to an administration fee of **DKK 300**. This term is void if the Renter has bought fuel service.

Please note! *If the car has been filled with the wrong type of fuel, a fee of DKK 5000 in damages will apply.*

### Sub-sea tunnels – Toll charges

There are three sub-sea tunnels in the Faroe Islands. One links the island Vágur (airport) to Streymoy (Tórshavn), and one links Eysturoy to Borðoy (Klaksvík). these tunnels charge a toll payment of **DKK 100** when leaving the islands. The third one connects Eysturoy and Streymoy and using it will shorten your trip to Runavík by 45 minutes from Tórshavn for a price of **DKK 280 each way**. The renter will be billed after the rental period is over. **Do not pay at the gas station** as the signs suggest, this will lead to double payment for the tunnels.

### Returning the car

**At the airport:** Park the car in the parking area called **P3** on either a parking lot marked with "Rent Your Car" or on an unmarked parking spot. Return the key to the rental office. If the office is closed you can drop off the key at the **Rent Your Car key box** in the entrance of the car rental center.
